

Silica to Sparkle

THE ART OF GLASS

EXHIBIT REMAINS UNTIL
JANUARY 26, 2014

Glass -- so fragile and so dangerous and yet so amazingly beautiful. It is a multi-dimensional, multi-faceted medium. It can be blown, fused, carved, torched, painted, cut and put back together. In other words, it is not your usual art platform.

It can be used as a window, a vessel, an enclosure or decorative item. Glass artists are only limited by their imaginations. This show will showcase the best of art glass in a beautiful venue.

Join us in celebrating the art of glass. This is an open, non-juried show with a judge and awards.

This Exhibit is
Dedicated to Master Glass Artists
**Roy Little &
Sonny Cresswell**
